The journey of transforming lives

A photograph of Ms. Syeda Mudasira, a woman from Chennapatna, Karnataka, sitting cross-legged on a patterned blue and white mat. She is wearing a dark blue sari with gold borders and a matching headscarf. Her hands are focused on embroidery work on a green circular fabric held in a wooden hoop. She is using a needle and thread to create a design. The background is a simple wall divided into three vertical sections of different colors: purple, light green, and pink.

Ms Syeda Mudasira

Chennapatna, Karnataka

Syeda Mudasira, from Chennapatna, Karnataka, like thousands of our stakeholder clients, is a woman with dreams and ambitions that had remained stifled by a feeble support system. She took a loan from us to open up a grocery shop; and through sheer dint of hard work and timely repayment, qualified for another. We in fact, discovered another talent that this enterprising lady possessed. The embroidery that you see on the cover page has been crafted by her, from a design we selected as our theme. It depicts a woman with hands folded in a symbolic "Namaste". The gesture is as much addressed to us on behalf of millions whose lives we have enriched; as it is our own humble feeling for the stakeholders who are making efforts to enhance the quality of life for our clients.

Weaving dreams into livelihood solutions

At CreditAccess Grameen Ltd., transformation of lives and livelihood for those who possess the skills and the drive but lack access to formal financial eco-systems has indeed been our calling card. Syeda Mudasira's story is heartwarming and so are those of million others being serviced through our loans and services.

Who knew that our humble journey that started in 1996 with the mission to lend affordable credit to India's poor and low-income households, predominantly women dominated, would lead on to become a revolutionizing financial force in rural India. With the vision to enable economic and social change in poor and low-income households, we have grown exponentially on all parameters. The number of clients, the quantum of loans, and the health and robustness of our balance sheet.

With a mission to transform and uplift the poor through microfinance and other development services, we have watched numerous self-driven entrepreneurs blossom from economically backward bellies of the nation into leaders who changed the course of their destiny. By focusing on improving financial access for women, we indirectly ensured their participation in helping their respective families and communities move forward. Our journey has not just been about helping the under-served. Our journey has been about helping rural women become the backbone of development in rural India. It humbles us to see these women weave their dreams into powerful realities of financial freedom and development.

As for Syeda Mudasira, whenever she wishes to turn her amazing embroidering skills into an additional source of income, she knows whom to approach.

Foreword

India is well on track to becoming the world's largest economy in another decade based on World Bank and International Monetary Fund projections. The country, which is a \$2.6 trillion economy and poised to overtake Germany to become the fifth largest economy in 2020, is also on track to be one of the world's largest in terms of population.

Despite all this, it is an irony that there are parts of India that are still marginalised. In terms of the GDP per capita, for example, our National Capital Region is roughly equal to that of a country like Indonesia. States like Bihar and Uttar Pradesh are among India's poorest.

It is thus imperative that in a country poised for such a dramatic growth, the paradoxes must be solved, especially at the financial grassroots level.

This is where Microfinance Institutions (MFI) have significantly contributed to this process by empowering the rural population with easy credit access in forms of loans. With these micro-financing options, the country's rural population is becoming more financially independent and is able to contribute to and grow with the economy. With microfinance, tens of thousands of individuals have transformed their lives. MFIs have a strong sense of social responsibility to work for people at the bottom of the pyramid by opening the doors of opportunities for them to lead a better life.

Here is an interesting story of a couple, Mrs Rajamani and her husband Mr Swami Nayak, who were able to change their lives with the help of CA Grameen, the microfinance institution striving to empower India's rural population.

After facing financial hardships due to constant ill health and medical expenses, Mrs Rajamani approached CA Grameen, introduced to her by her neighbours, for a small loan to start a provisions shop. It was a small amount, but this microfinance helped her family come out of poverty and start a new life, not once but twice. Now, Mrs Rajamani and her husband plan to expand their provisions store and enter into dairy farming.

"There is nothing that stops me from achieving my dreams. From a time of not owning anything to owning everything, facing setbacks to getting on my feet again, I owe all this to CA Grameen." - Mrs Rajamani

In another testimonial, another couple, Mrs Deepanjali and Mr Lokesh share their experience of how CA Grameen changed their lives. Working as a factory labourer, Deepanjali often fell sick and was unable to continue that work. It was then that she decided to start a teashop to run their household. It was later when she joined and liked the CA Grameen's microfinance group, she sought help for easy credit and individual loan to setup a provision store. In very little time, they saw growth in their business and were able to sustain a good quality life. Today, they are successfully running their store, and aiming to set up a small factory one day.

By uplifting the rural poor, microfinance institutions are spreading prosperity and providing opportunities to the unserved and underserved in India.

"CA Grameen proved to be life-changing for our household." - Mrs Deepanjali

Uplifting Rural India

Dear Shareholders,

The core philosophy of CreditAccess Grameen Limited (CA Grameen) lies in enriching and empowering low-income Asian households by providing tailor-made financial products and solutions. By adopting a customer-centric business model, we strive to balance economic growth with social responsibility to bring about a change that is sustainable and meaningful for those who face hardships and have little. In an effort to build the nation, we aim to open the doors of opportunity for the unserved and underserved and make them an integral part of the nation.

Nurtured as an NGO at its inception and transitioned into an NBFC in 2007-08, CA Grameen has attracted key investors and transformed itself into a mainstream NBFC-Microfinance Institution (MFI) today. With a strong sense of social responsibility to work for the people at the bottom of the pyramid, CA Grameen has 8,064 employees and 5,768 field officers working in 670 branches who handle over 71,593 million Gross AUM in 157 districts as on March 31, 2019.

The recent liquidity crisis, triggered by the collapse of Infrastructure Leasing and Financial Services (IL&FS) has put NBFCs and MFIs in the spotlight. The liquidity crunch has affected NBFC stocks, which have fallen by almost 30%. In order to provide liquidity, the Reserve Bank of India had to step in and injected about Rs 400,000 million into the system through the government securities to meet liquidity demand. Inspite of the liquidity crunch, CA Grameen's net profit in H1FY19 grew by 94% or Rs 1,456.84 million as against Rs 751.71 million for the year-earlier period.

CA Grameen also shifted its focus from creating social impact to being more socially responsible and ensuring the empowerment of the weaker sections of the society. On YoY basis loan disbursement increased by 35% to Rs 82,212 million and Gross AUM increased by 43.9% to Rs 71,593 million for FY 18-19.

During FY 2018-19, NBFC-MFIs disbursed loans worth Rs 8,31,390 million which was YoY increase of 45% when compared to FY 17-18. Top 10 MFIs accounted for 76% of industry disbursements in FY18-19.

GLP of NBFC-MFI as on FY18-19 stood at Rs. 6,78,430 million which was YoY increase of 46% when compared to FY17-18. Top ten MFI in the country contributed to 74 of NBFC-MFI segment GLP. The Eastern and Northeastern region accounted for 38% of overall portfolio followed by the southern region with 24%. Central and the western regions at 9% and 15% respectively. The Northern region had portfolio share of 14%.

After a great run last year, CA Grameen is looking forward to another successful year. We, at CA Grameen, believe in lean and efficient credit operations and competitive pricing for our financial products and solutions. Acknowledging the growth, the management is shifting the focus from creating a social impact to creating financial products and solutions designed for social responsibility. By investing in the latest technologies and innovative ideas, CA Grameen strives to develop high-quality financial products that will complement our portfolio and financial deliveries.

A Message from Our Chairman

Yet another year of impressive growth and accolades! Despite the lingering impact of de-monetisation, the havoc caused by the floods, and the NBFC liquidity crisis, CA Grameen has managed to achieve growth with profitability and quality at rates better than other players in the industry. No doubt, with many microfinance institutions (MFI) becoming small finance banks (SFB), the industry has fewer players today. Yet our performance was quite impressive given the difficult operating environment in the last fiscal year.

That the inherent strength of CA Grameen is well appreciated by banks and other financial institutions, both at the domestic and foreign level, is borne out by the fact that the Company has always had more than adequate liquidity at all times. The number of institutions supporting CA Grameen has shown an increasing trend. The smart recovery in the market price of the Company's equity shares also is an endorsement of the Company's intrinsic value.

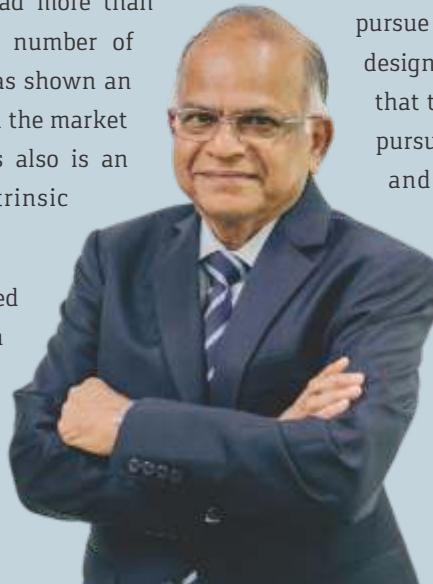

During the year, the Company introduced several value products for customers in keeping with its customer-centric approach. To improve the quality of product/service delivery and to facilitate better risk management,

several digital initiatives were introduced. The shift from creating a social impact to being socially responsible in an effort to develop the rural population continues to be our primary focus this year.

On other fronts, risk management has been further strengthened based on experiences of the past year during which the Company had to deal with the full impact of de-monetisation. Superior performance and recognition by important stakeholders has put greater responsibilities on the Company to protect and enhance its working culture and ethos, which enabled CA Grameen to achieve such a performance.

I am sure the CA Grameen team will continue to pursue a customer-centric approach in product design, pricing and delivery. I am also sure that the CA Grameen team will aggressively pursue digitization in operational aspects and management. The Board and the management will continue to focus on risk management and governance in the coming year.

I wish the CA Grameen team and all stakeholders greater glory in FY 2019-20.

M N Gopinath

A Message from Our Group CEO

Many of us have been dreaming about a company that can deliver substantial value to all stakeholders from investors to customers. During FY 2018-19, CA Grameen went for a public listing and received investments from over one lakh retail and institutional investors from all over the world, extending the perimeter of its positive impact to the capital markets. At the same time, without diluting its customer-centric approach, which has been a distinguishing factor of the Company's operations since its inception the Company has been able to extend such a positive impact to the families and the communities of our customers.

Sustainable development, the contribution of the economy to the well-being of the planet and communities, and low-carbon economies represent subjects, objectives and responsibilities increasingly relevant to all of us. We at CreditAccess are part of it and remain committed to doing our part of the task.

CA Grameen is the flagship of the CreditAccess group, not only in terms of size and profitability but because it truly inspires all our group companies to follow a positive path.

During FY 2018-19, CA Grameen has shown steady growth, increased profitability, and strong risk control, once again showing evidence of the enormous potential it has in the Indian market.

This is even more relevant considering that the non-bank-financial-companies (NBFC) in India have been under pressure during the year because of concerns about their Asset-Liabilities Management (ALM). This was 'the topic' that investors have been concerned about in the second half of the financial year, but with a positive spin for CA Grameen which has had a very solid and long-term-positive ALM structure.

Going forward, we expect the Indian microfinance sector to continue the current consolidation trend and CA Grameen, which is the largest non-bank microfinance institution (excluding Bharat financial which is in a merger process with Indusind Bank) to be among the top players in the country, continuing to enhance its stature in the microfinance market.

On behalf of CreditAccess Asia, I take the opportunity to thank once again all stakeholders for their immense contribution to the success of CA Grameen: board members, senior management, staff and customers.

CreditAccess Asia will go on contributing to the strategic governance of the Company and supporting its financial needs, and we remain positive about our role as promoter and major investor in such a great Company!

A Message from Our Managing Director & CEO

It gives me great pleasure to share with you the highlights of CA Grameen's journey in FY 2018-19, and present to you our first Annual Report as a publicly listed company.

This financial year, we continued to expand our operations and added 25 districts and 154 branches. Our borrower base saw an increase by 0.62 million. The Gross AUM has seen a growth of 44% percent year-over-year, a benchmark number for the microfinance industry. The challenges we faced during the year have strengthened us. We have stuck to our fundamentals, brought in more efficiency in all our operations, diversified our sources of funds, and funding strategy and have evolved our services around customer needs. We have ensured the wellbeing of our customers. With the support of all our stakeholders, we continue to grow and have a positive impact on the lives of rural poor and low-income households.

Our customer-centric business model remains at the core of CA Grameen and our retail finance (Individual lending) initiative is one of the many examples of how we have evolved around customer needs and convenience. Many of our customers who started tiny businesses with the support of our group lending products now aspire to becoming entrepreneurs. We continue to support them as they dream big with individual lending to expand their initiatives and working capital needs. Since November 2016, we have supported more than 40,000

Clients to expand their existing businesses. We are witness to many extraordinary stories of our women customers who aspire to dream big.

To complement our core business activities, we have also built many relevant social programmes, which I believe are essential to achieve the development goals of poor and low-income households. The WASH (Water-Sanitation-Hygiene) initiative is the perfect example of such an integrated strategy where the Company, through our CSR partner, has invested significantly to create awareness, impart training on various aspects of sanitation and provide access to affordable credit for toilet construction for customers in need. This financial year, we have also crossed a significant milestone of 1 million disbursals in water and sanitation loans since inception. This focus on the customer and community welfare has also earned CA Grameen enviable customer loyalty, which we believe helped us to withstand significant challenges in this area. We are enthusiastic and proud of the many accomplishments during the year and believe this would not have happened without the support and encouragement of all our stakeholders. We are grateful for your ongoing interest and faith in us. With the support of our Board of Directors, Investors and our ever-supportive 2.47 million women borrowers, team CA Grameen joins me in assuring our stakeholders of a progressive institution that provides sustainable value to all our stakeholders.

About CreditAccess Grameen

Formerly known as Grameen Koota Financial Services Pvt. Ltd., CreditAccess Grameen Limited was established to cater to the evolving financial needs of low-income households in India. Mrs Vinatha M Reddy first visualised the Company in December 1996, and she was herself inspired by Alex Counts' book 'Give Us Credit'. Alex Counts was the President and CEO of Grameen Foundation USA. The book detailed the inspiring stories of Bangladesh's poor who came out of poverty with micro-credit during the microfinance movement, spearheaded by Professor Muhammed Yunus, the 2006 Nobel Laureate.

CA Grameen was founded in May 1999 as a project under the T. Muniswamappa Trust (TMT), an NGO in South Bangalore. Grameen Trust, Bangladesh, provided seed capital funding to TMT to replicate the Grameen Bank Bangladesh microfinance model. Adapting the Grameen Bank's group lending methodology of microfinance to the Indian setting, CA Grameen began its operations in Avalahalli, on the outskirts of Bengaluru. The highlight was the collateral-free loans and other services to women from low-income households with the aim of creating equal opportunities for both the urban and rural poor.

With collateral-free loans, many households raised their standard of living and came out of poverty. In a few years, CA Grameen created a class of financially literate women entrepreneurs, and eventually, they began to outgrow the group-lending model. During the initial years, women

entrepreneurs' wise and productive use of monetary resources was observed, and CA Grameen started focusing on giving credit to women as they are an integral part of the family, community and play a key role in building the country's socio-economic ecosystem.

That is why CA Grameen targets women. Women tend to use resources more productively, so improving financial access for women may increase their participation in the family and community development.

It was in 2007 that the microfinance activities of CA Grameen were transferred from an NGO to a well-regulated and registered Non-Banking Financial Company (NBFC). In 2013, the RBI reclassified CA Grameen into a regulated and governed Non-Banking Financial Company-Micro Finance Institutions (NBFC-MFI). Grameen Koota continues to be the operating brand name of CA Grameen.

At CA Grameen, offerings of financial and non-financial products and services were created to meet the financial needs of the weaker section of the society. CA Grameen products are subject to periodic modifications based on feedback from customers and staff input. The main mission of CA Grameen today has shifted from its primary focus of creating a social impact in the society to being socially responsible. It aims to be a preferred partner to 10 million low-income households that lack the access to credit, by 2025.

CA Grameen has entered into a tie-up with Shriram Life Insurance Company Limited, Kotak Mahindra Life Insurance Company Limited, DHFLPramerica Life Insurance Company Limited, ICICI Prudential Life Insurance Company Limited and HDFC Life Insurance Company Limited to provide insurance coverage to members and spouse/co-borrowers (applicable for Retail Finance).

National Pension Scheme- Swavalamban

As an aggregator of the National Pension Scheme (NPS), CA Grameen collects the contribution amount from our customers during the weekly centre/Kendra meetings. This initiative saves time and money for our clients, who would otherwise have had to travel to the nearest NPS aggregators.

The scheme does not require any mandatory monthly/yearly deposits. Continued investment in the scheme will help our customers earn a decent pension in the future. To ensure that they understand the product and its benefits completely before they decide to enroll, CA Grameen has designed training sessions for them.

Awards, Recognition and Accolades

CA Grameen has implemented all the three events conducted by M-Cril that is certified by Smart Campaign team:

- First certified in January 2013 (one among the first 5 organisations in India to be certified)
- Certificate check-in conducted in November 2015
- Recertification in March 2019

SMART CAMPAIGN CLIENT PROTECTION CERTIFICATION (CPP - Client Protection Principles)

CA Grameen has been evaluated according to the standards of the Client Protection Certification Program and found to have taken adequate care to implement Client Protection Principles as promoted by the Smart Campaign. The Smart Campaign is the certifying body and the certification process was conducted by M-Cril.

Smart Campaign is a global effort to unite financial leaders around a common goal: to keep customers as the driving force of the industry.

Responsible financial inclusion protects clients, businesses, and the industry as a whole. It also encompasses core Client Protection Principles to help financial service providers practice good ethics and smart business. The Client Protection Principles are the minimum standards that clients should expect to receive when

doing business with a financial service provider. These principles have been distilled from the path-breaking work done by providers, international networks, and national microfinance associations to develop pro-client codes of conduct and practices. From this has emerged a consensus within the financial inclusion industry that providers of financial services should adhere to the following core principles:

- Appropriate product design and delivery
- Prevention of over-indebtedness
- Transparency
- Responsible pricing
- Fair and respectful treatment of customers
- Privacy of customer data
- Mechanisms for complaint resolution

CA Grameen: Stories in focus

IPO Highlights

CA Grameen was born out of the need to provide timely and affordable credit to India's poor and economically marginalised households. Over two decades of our existence, the organisation has grown following a customer-centric business model. The noble tenets of service through inclusion crossed many milestones and one of those important events was the launch of the Initial Public Offering. The IPO of microfinance institution CA Grameen opened on August 8, 2018 and was subscribed 2.22 times.

The listing of CA Grameen took place on August 23, 2018. The listing function was attended by Mrs Vinatha M Reddy- Founder, Grameen Koota, Mr Suresh K Krishna, Co-founder-

Grameen Koota, Mr M N Gopinath, Chairman, CA Grameen, Mr Paolo Brichetti, Promoter, CreditAccess Asia and Nominee Director in the Board, Mr Udaya Kumar Hebbar, MD & CEO, CA Grameen, Mr Diwakar BR, CFO, CA Grameen, Mr Ajay Saraf, ICICI Securities Ltd, Mr Subrajit Roy, Kotak Mahindra Capital Company Ltd, Mr Sumit Jalan, Credit Suisse, Mr Nipun Goyal, IIFL Holdings Limited and Mr Ashish Kumar Chauhan, MD & CEO, BSE Ltd.

Key people from the top management have also witnessed this occasion.

On this momentous occasion, Mr M N Gopinath recalled the inception of the organisation saying its customer centricity has helped it to gain the trust of the customer base, which has enabled it to be successful.

Mr Paolo Brichetti said, "Irrespective of the size, the spirit to serve the community will always be there."

MD & CEO of CA Grameen, Mr Udaya Kumar Hebbar said the organisation had 516 branches, over 6,000 employees, more than 2.2 million customers in 132 districts of eight states and 1 union territory, as of March 2018.

Mr Ashish Kumar Chauhan, MD & CEO of BSE praised the efforts of Mrs Vinatha Reddy, Founder of Grameen Koota. He stressed the importance of women empowerment. CA Grameen carries out relief work in flood-hit districts of Karnataka

August 2018 saw the severe destruction of lives and land in the form of floods in Karnataka. Some of the worst affected districts were Coorg, Chikmagalur and Kodagu. This calamity has been described as one of worst natural disasters to hit the state in recent times. CA Grameen contributed Rs 1 million to the Chief Minister's Calamity Relief Fund for Karnataka. Apart from this, the organisation also carried out relief work in several districts including Virajpet, Kushalanagar and Kollegala by providing the flood-affected with blankets, clothes, food rations etc. Over 1,500 customers of CA Grameen whose lives were disrupted by the floods were benefitted.

Health Awareness and Well Being Camp organized at HO

CA Grameen has organised a free medical health check-up camp for head office employees on 26th & 27th December, 2018. The camp was organised in association with Medi-Assist. Employees were given a free physical examination. All the employees at the HO participated with great enthusiasm. The employees at the branches will be provided with the same health check-up facilities in the coming months so that they can also avail these benefits.

CRISIL assigns Top Industry Rating of 'MICI' to CA Grameen

The credit rating agency, CRISIL, has assigned the industry's top MFI grading of 'MICI' to CA Grameen. systems and processes remain robust in relation to its peers. The MFI (CA Grameen) obtains "C1" as its Code of Conduct Assessment Grade, which signifies 'Excellent' performance on COCA dimensions. The organisation has complied with stipulated regulatory guidelines and Code of Conduct principles. A board-approved fair practices code is in place.

ii. Client Protection Certification by Smart Campaign

CA Grameen has been evaluated as per the standards of the Client Protection Certification Program and found to have taken adequate care to implement Client Protection Principles as promoted by Smart Campaign.

Smart Campaign is a global effort to unite financial leaders around a common goal: to keep customers as the driving force of the industry. Responsible financial inclusion protects clients, businesses, and industry as a whole. Responsible financial inclusion encompasses core Client Protection Principles to help financial service providers practice good ethics and smart business.

The Client Protection Principles are the minimum standards that clients should expect to receive when doing business with a financial services provider. These principles have been distilled from the path-breaking work by providers, international networks, and national microfinance associations to develop pro-client codes of conduct and practices. There is consensus within the financial inclusion industry that providers of financial services should adhere to these core principles:

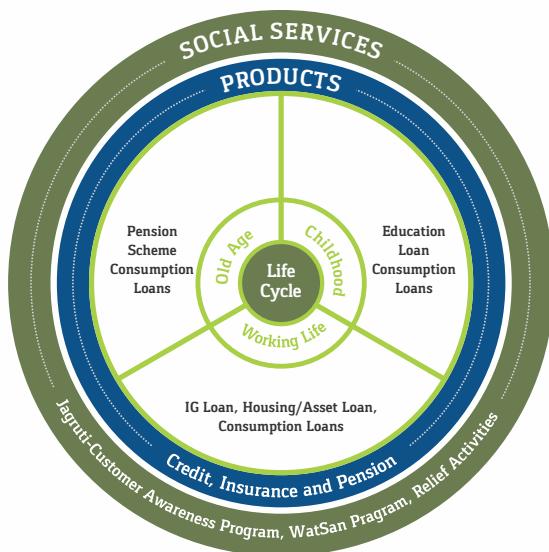

- I. Appropriate product design and delivery
- II. Prevention of over-indebtedness
- III. Transparency
- IV. Responsible pricing
- V. Fair and respectful treatment of clients
- VI. Privacy of client data
- VII. Mechanisms for complaint resolution

III. SOCIAL PERFORMANCE HIGHLIGHTS

Insurance-related Grievances - As % of overall claims	3.2%	1.2%	2.3%	4.7%

C. Responsibility to Staff

Being in the business of financial inclusion, we also believe it is our responsibility to groom and nurture youngsters and enable them to be gainfully employed with us.

As an organisation, our first preference is to recruit fresh talent from among relatives of our customers. Once we shortlist them with our pre-training programme, we train them to take up existing opportunities with us. There are elaborate post-hiring training programmes too that help candidates develop skills and understand the business. These talents will get priority in internal promotions thereby providing them with career-growth opportunities. We believe this will create synergy with the customer and employees, and facilitate smooth business transactions too. This has been reflected in the fact that our attrition rate is comparably lower than the industry standard.

Considering that our business has a vast geographic reach and employees move from branch to branch as part of their career and growth, we are one of the few organisations in the NBFC-MFI industry, that provide staff accommodation and boarding for branch-level staff which helps them have better net earnings, and stay focused on contributing to the business and customers.

We are an equal opportunity employer. However, we also look at the interests and needs of employees to provide with suitable opportunities. Though not many women employees prefer field jobs, we encourage them to take up supporting roles apart

from trying to motivate them to take up field assignments.

Apart from the above, benefits provided include a five-day work week, extended break from work for women with infants, life insurance cover and insurance benefits which we believe makes us an organisation that cares and takes responsibility for its staff.

Free Health Check-up camp for CA Grameen employees

A free Health Check Up Camp was organised for all CA Grameen HO employees on 26th and 27th of December 2018 in association with Medi-Assist. This medical check-up is a new initiative taken up by the Company as part of its employee benefit measures.

Facilities provided were:

- Blood tests
- Cholesterol tests
- Urine tests
- Sugar tests
- ECG

The same health facility has been provided across all CA Grameen branches (221) covering 2,563 employees in Karnataka. For other States, the facility will be extended over the next few months.

The main objective for conducting these health check-ups is to help employees stay healthy.

The tests may capture potentially serious health issues early on, and employees can then receive treatment. The Company believes that healthy employees can make effective contributions to the Company's objectives and growth.

New No.49 (Old No.725), 46th Cross, 8th Block,
Jayanagar (Next to Rajalakshmi Kalyana Mantap),
Bengaluru - 560071.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **CA Grameen** ("Company"). Secretarial Audit was conducted in a manner that provided me with a reasonable basis for evaluating the corporate conducts/ statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March 2019 ("Audit Period"), complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanisms in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for Audit Period, according to the provisions of:

- (i) The Companies Act, 2013 and the rules made thereunder ("Act");
- (ii) The Securities Contracts (Regulation) Act, 1956 and the Rules made thereunder - **Not Applicable**;
- (iii) The Depositories Act, 1996 and the regulations and bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder ("FEMA") to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings [The Company has not raised any External Commercial Borrowings during the Audit Period];
- (v) The following regulations and guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ("SEBI Act") to the extent applicable to the Company:-
 - a. Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - b. Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - c. Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - d. Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - e. Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - f. Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 - **Not Applicable during the audit period**;

- g. Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - h. Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 - ***Not Applicable during the audit period;***
 - i. Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 - ***Not Applicable during the audit period;*** and
- (vi) Other laws informed by the management of the Company as applicable to the Company and enclosed as **Annexure-1** hereto.

Further, I have also examined compliance with the applicable clauses of the following:

- i. Secretarial Standards issued by The Institute of Company Secretaries of India with respect to board and general meetings.
- ii. The Listing Agreements entered by the Company with National Stock Exchange of India Limited and Bombay Stock Exchange Limited read with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 with respect to listing of Non-Convertible debt securities.

I further report that during the Audit period, the Company has complied with the provisions of the Act, rules, regulations, guidelines, standards, etc., mentioned above, subject to the following observation:

- During the audit period, the Company had filed forms and returns within the due date except for very few instances where they have filed beyond the due date, with additional fees.

I further report that:

- The Board of Directors of the Company is duly constituted with a proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the Audit Period were carried out in compliance with the provisions of the Act.
- Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance (and by complying with prescribed procedure where the meetings are called with less than seven days' notice), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- All decisions at the Board Meetings and Committee Meetings are carried out unanimously, as recorded in the minutes.
- The compliance of applicable financial laws, like direct and indirect tax laws, have not been reviewed in this Audit since the same have been subject to review by statutory financial audit and other designated professionals.

I further report that:

- there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

Corporate Social Responsibility Report

Corporate Social Responsibility Report

Introduction

At CA Grameen, we have always aligned business priorities with 'Social Commitments' targeting need-based interventions for community welfare in select states of our operating geographies.

The Corporate Social Responsibility (CSR) interventions are focused on enhancing quality of life of the communities that are located in the vicinity of business locations by way of creating awareness and providing support.

CSR Framework

CA Grameen's CSR programme is based on the following framework:

1. Need-based understanding of selected topics in the area of Water, Sanitation, Hygiene, Health and Financial Literacy
2. Community focused participatory planning for identified programs
3. Monitoring of projects on regulatory basis
4. Evaluation and Social audit

CSR Execution for FY 2018-19

Navya Disha, an NGO is the executing partner of CA Grameen's CSR activities. The activities are conducted jointly by Navya Disha and CA Grameen staff at select branches. In FY2018-19, a total of 220 branches were chosen across Karnataka, Maharashtra, Tamil Nadu and Madhya Pradesh for implementing CSR activities. We have conducted 20,667 activities under three main programmes reaching over a million people (customers and non-customers). Details of these programmes available in this report.

Increased access to clean water and improved sanitation are the key outcomes of any WASH activity. Keeping this in mind, a CSR impact assessment study was commissioned through an external research agency (M-Cril). At a macro level, progress in WASH (Water, Sanitation and Hygiene), Susikshana (special education to children) and Sugrama (community development programme) programmes in Karnataka and Maharashtra was studied. The sample selected covered 8 districts reaching 400 households who had constructed toilets within the last 3 years.

A few broad level findings from the study indicate that

- Over two thirds of the households saved time in toilet usage (earlier they about one hour per trip to go outside or use a shared toilet)
- People feel safer than before largely because of privacy and protection from harmful insects and animals

It was found that the most important hygiene-related behaviour is practiced nearly in all households. Most households clean their toilets on a weekly basis and everyone washes their hands with soap before eating. Based on a few of observations, the management team revisited some of the programmes mentioned below and this increased the effectiveness of these programmes implemented in FY 2018-19. The programmes were as follows:

- Workshop for Gram panchayat elected representatives that was redesigned to a cluster-level awareness programme
- Financial literacy app pilot programme in community development initiative
- Health Awareness campaign pilot programme in one branch at Ramanagara district, Karnataka, to meet the health needs of customers in non-communicable diseases

Flagship Programmes of 2018-19

The flagship programs of CA Grameen are as follows:

1. WASH : Water, Sanitation, Hygiene programme
2. Susikshana : Children education programme
3. Sugrama : Community development programme

1. WASH

To promote a hygienic environment through the prevention of open defecation, to reduce the incidence of water and soil borne diseases and to create awareness about safe drinking water are the primary objectives. Various innovative ways are used to reach out to customers and people in villages up to district level on ill effects of open defecation which pollutes soil, water and air. Given below are the activities conducted in FY 2018-19.

Activities under WASH

a. Branch staff training on WASH

The staff are made aware of the importance of

WASH in their day-to-day lives and its usefulness in educating and creating awareness for customers. The mindset of the community towards unhygienic conditions and open defecation needs a change. This will be possible through regular awareness on sanitation within the community. In case of any queries, staff will be equipped to provide responses on various topics related to WASH.

In FY 2018-19, 221 orientation activities were conducted creating awareness for 2,421 CA Grameen staff.

b. Customer Orientation on WASH

WASH awareness sessions are conducted during Kendra meetings to equip and educate customers. The orientation is imparted at the end of the Kendra meetings, covering aspects such as safe drinking water, good sanitation practices and benefits of a hygienic life. In FY 2018-19, 58,092 customers were reached through 4,637 orientation activities.

c. Wall Painting

The objective behind painting walls with a variety of pictorial depictions is to ensure that the correct information on constructing toilets, usage and maintenance is provided to all people in a select village. The content shown in pictorial form are realistic and provide the cost of various items required to construct toilets. This information ensures that customers and their relatives are not cheated by local masons. Public spaces such as walls of panchayat schools, offices or other prominent places were chosen for these pictorial displays.

In FY 2018-19, 845 wall paintings were done (one painting per village)

d. Street Plays

Street plays can communicate several messages to the masses very effectively in an entertaining manner. The impact of delivering a message such as WASH which is a part of one's daily lives may go unnoticed, if not delivered effectively. Folklore, traditional narratives and dramatisation have been used to deliver these messages.

In FY 2018-19, the total number of street plays enacted were 4,402 reaching out to 321,147 people.

e. Flyer Distribution

Flyers containing messages on WASH have been distributed to customers and their relatives during various awareness campaigns. These flyers are a medium of information to educate these customers. In FY 2018-19, 152,646 flyers were distributed at 220 social awareness events.

f. Social Awareness Campaigns (SAC)

Social Awareness Campaigns (SAC) are a common platform provided to the CA Grameen customers to interact with the district officials across block, taluk and panchayat levels. This forum gives customers an opportunity to speak with various administrative officials regarding WASH and government schemes.

The objective of this programme is to find constructive solutions to the issues that customers face and get solutions. The initiative includes getting to know sessions with the audience through a live demonstration of hygiene techniques followed by video display, guest talks, and Q&A sessions between members of the community and the guest speaker. Customers are encouraged to provide their feedback on the effectiveness of the programme.

In FY 2018-19, 220 SAC programmes were conducted reaching out to 70,714 customers.

g. New Initiatives under WASH, FY 2018-19

Cluster Level Awareness Programme

A group of 100-150 customers' area addressed on the importance of WASH and other various hygiene issues. The activity includes mock triggering, Q&A sessions, videos on the harmful effect of open defecation and display of flowcharts.

In the FY 2018-19, 1,772 Cluster Level Awareness Programmes were conducted for 79,420 customers.

2. Susikshana

Learning that empowers: Government and aided schools in select CSR villages are selected and children who are studying in 8th, 9th and 10th standard were provided with guidance on overall personality development. The activities included team games, flow charts and live demos. Activities conducted have been listed below

- a. WASH for 8th standard students
- b. Financial literacy for 9th standard students
- c. Career guidance for 10th standard students

Activities	Outreach	Description
WASH training for 8th standard students	115,254 Trained	<ul style="list-style-type: none"> • Demos on the correct way of hand washing • Session on the importance of toilet usage • Session on effective water usage • Display of videos
Financial literacy for 9th standard students	126,054 Trained	<ul style="list-style-type: none"> • Practical exposure to students through a finance management game called 'Play Paisa'. Objective of this game is to educate students on: <ul style="list-style-type: none"> • Basics of saving • Making your money grow • Building an emergency fund • Saving in a wise manner
Career guidance for 10th standard students	120,681 Trained	<ul style="list-style-type: none"> • Self-Introspection sessions • Presentations on family values and responsibilities • Pictorial booklet on well-known personalities who have been recognised for their achievements • Demos on various higher education options available for the science, arts and commerce education.

3. Sugrama

Sugrama is a village adoption programme aimed at improving the lives of rural communities through sustainable integrated community development activities. Themes such as sanitation, preventive health, water management and infrastructure in

partnership with communities (local government and NGOs) has been the primary focus.

The programme is implemented by adopting two gram panchayats covering 25 villages. The details of gram panchayats are provided below:

- Hosa Vantamuri in Belgavi district (9 villages)
- Urdigere in Tumkur district (16 villages)

Picture source: Rural community development model for model village

Key Activities in Sugrama

a. Education and self-management

Learning that empowers: Education leads to human resource development at all stages of life including imparting softskills that are needed for a better quality of life. Education should be inclusive for all as it leads to gender transformative behaviour and acknowledges safe spaces for children. We have conducted gender sensitivity activities, career guidance sessions, fun learning sessions and various other demonstrations. Details are provided below:

i. Gender Sensitivity Training for Trainers (TOT)

To train young adults, we need good trainers who can educate them on gender sensitivity. We identify and support trainers who are interested in getting this kind of training. Various resource persons are usually invited to speak at such events.

In the FY 2018-19, we supported 6 trainers.

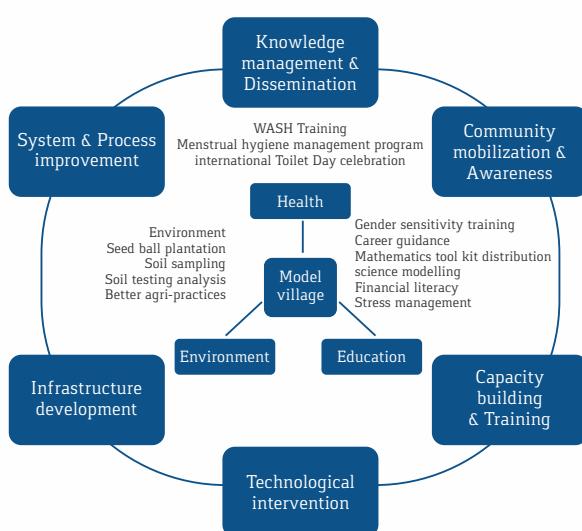

ii. Gender Sensitivity training for high school boys

The objective of this activity is to create awareness among young adults about basic issues of gender sensitivity and mutual respect. Sessions are held on various aspects of the stereotyping of people by the society, both at an institutional level and an individual level. This includes role plays, videos, display, group discussions and Q&A sessions. Equal Community Foundation, an NGO, designed the modules.

In FY 2018-19, 124 students were trained from 4 schools in Karnataka.

iii. Career Guidance sessions for 10 standard students

This activity provides 10th standard students with appropriate guidance and direction to pursue higher studies by making the right career

decisions. The sessions include information on career options and the medium of information is via videos and pictorial booklet. A few examples of famous personalities and their successful careers is explained in order to inspire the students.

In FY 2018-19, 115 10th standard students were given three career guidance sessions at 3 schools

iv. Distribution of innovative mathtool kits for primary school children

It is important to inculcate the habit of fun learning in children at an early age. Innovative maths tool kits help teachers to understand the various mathematical concepts. Students further use these tools to practice and learn by themselves.

In FY 2018-19, 22 primary schools were given such math tool kits benefitting 1,443 students.

v. Science-related demonstrations for high school students

The aim of this programme is to encourage and enable students to develop enquiring minds about science and natural world. It effectively communicates scientific ideas, arguments and practical experiences. Students are given the opportunity to visit science museums to gain practical practical knowledge.

In FY 2018-19, 4 schools were supported in which 518 students participated.

b. Health

Health and Wellbeing: Equitable and universal access to health for all including prevention of communicable and non-communicable diseases, malnutrition, (maternal) child and reproductive health, healthy habit formation are the primary objectives of this activity in Sugrama

i. WASH Training

WASH training provided to school students on importance of health and hygiene. Sessions like demo triggering, flip chart display, and hand wash training, video display on importance of constructing toilets, pictorial display of various issues and ill effects of open defecation is conducted.

In FY2018-19, 27 training sessions were conducted on WASH across 20 schools reaching 1,550 students.

ii. Menstrual Hygiene Management Program

The objective of the programme is to create awareness among adolescent girls on menstrual hygiene.

In FY 2018-19, 38 sessions were conducted and this benefitted 1,190 women

International toilet day was celebrated along with community and the message of sanitation made possible by community-level participation was explained to participants.

c. Environment

Way of life: Access to clean air, water, energy, soil, flora, fauna, terrestrial ecosystem conservation, environmentally responsible practices at all levels, combating desertification, deforestation, land degradation, biodiversity loss, pollution and promoting use of renewable resources are the primary objectives planned as part of this activity. Various activities conducted have been listed below:

- i. Seed ball plantation
- ii. Soil sampling programme for farmers
- iii. Soil testing analysis report
- iv. Better agri practices training for farmers
- v. Rapid study on soil, water and crops

d. New Initiatives under Sugrama in FY 2018-19

i. Financial Literacy App

This App was introduced as a pilot activity for CA Grameen customers. It helped customers to gain knowledge about saving money and utilising resources meaningfully to secure their futures. The App contains videos and case studies that explain the benefits of money management. 53 CA Grameen customers were trained through the literacy App. Customers said they were happy using the App and would use it if they were provided with it.

4. New Initiative undertaken in the FY2018-19

Health Awareness Campaign at Channapatna branch

As a result of the continuous increase in non-communicable diseases, cancer screening has become a high priority component of women's health. Since CA Grameen customers are all women, we wanted to support them with a comprehensive health check package. In the process, we collaborated with Niramai who voluntarily offered a free cancer

screening to 123 customers through a non-invasive risk assessment software (AI-artificial intelligence) that detects breast cancer in the early stages.

This one-day 'Comprehensive Health Checkup Camp' was conducted at the Channapatna branch. The objective of this campaign was to create awareness about non-communicable diseases. Customers usually are not aware about these diseases and the practice of visiting a doctor and getting themselves checked on regular basis remains a taboo. Customers were invited to take a free check-up on breast cancer screening and other non-communicable diseases. Niramai and Narayana Health offered free thermal breast screening and health checkups for 123 CA Grameen customers.

The entire process of screening takes about 20 minutes. A basic risk assessment study containing 12 questions was used for a basic profiling of the

customer. This enabled the Niramai team to classify the chances of customers getting exposed to cancer as high, medium or low based on family histories with cancer diseases, lifestyles and general health status (related to pregnancy and menstrual health).

Customers who were recognised with high and medium risk underwent scanning using artificial intelligence technology. Customers in the low risk category were given a physical examination by a trained professional.

Our research team interacted with a few customers who went through the entire process of check-up in order get feedback and identify areas that needed improvement. The findings clearly showed that all customers were delighted with the service offered by CA Grameen and wanted to attend such health campaigns in future.

Management Discussion & Analysis

Management Discussion and Analysis

I. MICROFINANCE INDUSTRY: A BROAD PERSPECTIVE

A. Industry Overview:

The Indian microfinance industry consists of Non-Banking Financial Companies - Micro Finance Institutions (NBFC-MFIs) (members of 'Microfinance Institutions Network' - MFIN) and other lenders under the category of Banks, Small Finance Banks (SFBs), NBFCs, non-profit MFIs and Self-Help Groups (SHGs). As of March 31, 2019, the industry's total gross loan portfolio (i.e. loan amount outstanding) was Rs 1,873,860 million. The NBFC-MFI segment accounts for 36.8% of the microfinance lending, with Banks at 32.6% and SFBs at 18.5%.

B. NBFC- MFI

As of March 31, 2019, NBFC-MFI segment served 31.4 million customers. The customer base has increased by 31% over the previous financial year. Gross loan portfolio (GLP) of NBFC-MFI segment was Rs 678,430 million, an increase of 46% from the previous year. Customers received disbursements of Rs 831,390 million through 32.5 million loans representing a growth of 45% over the previous year.

The NBFC-MFI segment has 12,202 branches across the country, which provided employment to 104,032 persons.

The NBFC-MFI segment is governed by two self-regulatory organisations (MFIN and Sa-Dhan). According to MFIN, NBFC-MFI segment has 53 companies operating in this space. These companies have been classified as Large, Medium and Small based on their individual GLP. Companies having GLP more than Rs 5,000 million are classified as Large entities. Companies having GLP between Rs 1,000 million to Rs 5,000 million are classified as Medium entities and companies having GLP less than Rs 1,000 million are classified as Small entities. As per the classification, there are 23 Large, 16 Medium and 14 Small entities. Large entities account for 92.4% of the NBFC-MFI segment.

A profile of NBFC-MFIs is given below:

- Top Ten Large MFIs' GLP constituted 74% of the GLP of the NBFC-MFI segment. As of March 31, 2019, rural portfolio contribution stood at 74%.
- Loans for Agri-Allied activities (mainly for animal husbandry) account for 57% of the GLP. Trade/services and manufacturing loans account for 40% and household finance loans account for 3% of GLP.
- Region-wise distribution of portfolio is as follows:
 - South : 24%
 - West : 15%
 - North : 14%
 - Central : 09%
 - East and North East : 38%
- Karnataka, Bihar, Odisha, Maharashtra and Uttar Pradesh account for 52% of GLP. The top 10 States account for 84% of the total industry loan amount outstanding.

The SFB segment, with 9 entities, has a total loan outstanding of Rs 346,790 million with 17.4 million loan accounts. Compared to previous year, the growth in loan outstanding of SFBs increased by 25%.

II. COMPETITIVE STRENGTHS AND STRATEGIES

A. Higher rural penetration

As of March 31, 2019, borrowers serviced by CreditAccess Grameen Limited (The Company) in rural areas was 82%. Each branch has been planned to cover maximum number of villages located within a radius up to 30 Kms from each branch office.

The Company has consistently increased its share in rural areas in last five years. Details of the same has been provided in the below table,

B. Market Position

As of March 31, 2019, the Company was ranked in the 2nd position among the 23 large MFIs (3rd Position during FY 2017-18). The Company held 11% share of total GLP of the NBFC-MFI segment (10 as of March 31, 2018).

C. Customer Interaction

Employees interact with customers at Kendra meetings which are conducted on weekly and bi-weekly basis. At these meetings, apart from completing loan related transactions, customers are provided with information on various topics of interest to them such as financial literacy, hygiene, legal rights etc. Additional programmes such as Jagruti, Social Awareness Campaigns and others are also conducted for information dissemination and training at regular intervals. Effective mechanisms have also been designed to constantly obtain customer feedback. This feedback is then used to make improvements in the existing products/processes and also design new products and services.

D. Product Design - Customer centric and Sustainable

The Company has adopted a 'Life Cycle Approach' for the design of products and services. These products cater to all customer needs during their life cycle. Customer centricity is the basic tenet in design of products and processes. For instance, customers can choose their repayments frequency; weekly, bi-weekly or four-weekly, based on their cashflow while contracting the loan. This is a unique customer centric feature of CreditAccess Grameen Limited (The Company) products, and is designed to give flexibility to the customers to match their repayment obligations with their cash inflow pattern.

The Company continues to be scalable and financially sustainable with high level of customer satisfaction, lower operating costs, lower credit risk and lower customer attrition primarily due to the customer loyalty generated through customer centric approach.

The Company has steadily groomed a class of financially literate women entrepreneurs who have outgrown the group lending model and who have higher loan requirements, for such borrowers we have started Retail Finance (RF) vertical.

Loans offered under RF range upto Rs. 0.5 million and are given for meeting working capital requirement, purchase of vehicles to support income generation activity and loans for business expansion.

E. Employee Friendly Organisation

Employees are largely recruited from among the rural unemployed youth to service the rural focused business of The Company. For over 90 percent of staff, The Company is their first employer. Several welfare schemes have been implemented to make the Company an employee friendly organization. The Company is one among the few MFIs that has a 5-day week.

F. Efficient and Stable Management Team

The Company has well qualified people who are very experienced in the Management team. The team has always been approachable and innovative in its decision-making process. Since 2012-13, there has been no significant attrition in the management team. This has enabled The Company's growth by the way of quick decision-making and effective implementation of strategies.

III. OPPORTUNITIES AND THREATS

A. Opportunities

The broader macro-economic growth drives upward economic mobility of our customer segment households as well. This in addition to increasing financial and social awareness would create increased need and demand for credit and non-credit offerings. With our distribution network and high touch customer engagement model, the Company is well positioned to serve these evolving needs of our customer households.

Digital ecosystem development pushed by the government as well as regulators and other market participants offer opportunities for us to innovate new delivery methods, provide better customer experience and become more efficient.

With the increase in usage of smartphone across various geographies and continuous growth towards data connectivity adoption, the Company foresees a big opportunity to understand customers better and offer more personalized services and offerings in a cost-efficient way.

B. Threats

The Company foresees a couple of market developments that could pose a threat to the business in the future. A few key points have been noted below:

- Large mobile first digital native players such as large mobile wallet companies or new age telecommunications companies targeting our customer segment by offering cheaper and deep discounted products
- Deep pocketed and disruptive / top line focused players entering the micro credit business with deep discounted products and services without tight processes discipline spoiling the credit discipline and group discipline model, thereby affecting all players in the segment

IV. NEW INITIATIVES

A. New Product Introduction

Based on the feedback received from the customers from various touch points, the Company wanted to cater to customer needs by offering the relevant products. In order to offer support for the betterment of existing income generation activity, the Company introduced the 'Grameen Vaahan Loan'. The main focus of this product is to help the customers to effectively manage the logistical challenges that may arise in meeting the aspirational needs of the business. Customers are being offered financial support to buy light commercial vehicles. These loans are being offered to customers in their individual capacity.

B. Opening of new RPC Offices

Three new Regional Processing Centers have been setup at Jabalpur (Madhya Pradesh), Raipur (Chhattisgarh) and Thiruvannamalai (Tamil Nadu) to support the branches in the respective regions in Key processes like customer enrolment, data updation, awareness and feedback assessment etc. These Centers have assisted the branches in processing over 0.13 million new customers in this Financial Year.

Learning Portal

The Company has continued to use the open source online E-learning portal for employee training. This has provided a robust platform for delivering effective learning modules to all employees. The portal is a powerful tool to reduce training costs and deliver effective training programmes to a larger audience.

I. Internal Controls and its adequacy

The Company believes in maintaining a strong internal control framework and sees such a framework as an essential prerequisite for the growth of business. The Company has well-documented policies, procedures and authorization guidelines in place. Additionally, an efficient independent internal audit system is in place to conduct audit of all branches, regional offices and the Head Office.

Internal Audit in the Company is an independent unit focused on improving and enhancing the operations of the organization. It assists the Company in accomplishing its objectives by bringing in a systematic and disciplined approach to evaluate and improve the effectiveness of Company's internal control, risk management and governance processes.

The internal audit function has free and unrestricted access to all of the Company's records, physical properties and personnel associated with carrying out any engagement. The internal audit activity also has a free and direct access to the Board. The Audit Committee of the Board is updated on significant internal audit observations, compliance with statutes, and progress of risk management and effectiveness of control systems every quarter. Internal Audit also interacts with the external auditors. Every branch is audited six times in a year. Based on the extent of compliance and adherence to systems, policies and procedures, the audited branches are assigned compliance scores.

J. Risk Management

The Company has integrated risk management practices into governance and operations. Appropriate systems and tools are in place for identification, measurement, reporting and managing risks. The Risk Management Committee of the Board comprises of professional directors with relevant experience, who understand the risks specific to the Company, and the microfinance sector, in general. The Board oversees the implementation of the risk management plan principally through the Risk Management Committee. The Annual Risk Management Plan covers the major risks that have been identified by management as needing particular focus and close monitoring. The Risk Management Plan forms the basis for implementation of risk management strategies and practices in detail. The risk assessments are carried out regularly at all levels in the Company to ensure appropriate management actions in a timely fashion. Risk reviews addresses credit, operational, IT, financial, political, regulatory and reputational risks. All strategies with respect to managing

major risks are monitored by the Management Level Risk Committee and reported to the Risk Management Committee of the Board of Directors.

K. Information Technology

The Information Technology team in the Company has continually focused on implementing a centralized and consolidated Information System to enable smooth and swift flow of information and data across the system. This has enabled the Company to control the cost of operations and provide improved services to customers. The Company has focused its efforts towards embracing state of the art technology solutions to support the Company's growth and enhance the efficiencies of its operations.

Credit Bureau

The Company works with credit bureaus like Highmark, Equifax, Experion and CIBIL. Credit bureaus help to identify overlapping microfinance borrowers, their overall loan exposure and incidents of default. Every loan given by the Company undergoes a credit check with the credit bureaus. The credit bureau verification process has been integrated into the loan delivery processes and has helped minimize instances of borrower over-indebtedness. The entire process is automated and centralized which enabled high level of controls in this process.

Core Banking System (CBS)

T24 MCB is the CBS offered by Temenos, which is a leading provider of core banking solutions worldwide. T24 MCB has been customized for the Company's business operations. The higher levels of automation, controls and flexibility provided by the system enable the Company to achieve its vision of reaching out to a larger customer base.

Reporting

The Company generates various internal and external reports using the Jasper Reporting Server, which enables the reports to be auto extracted and emailed to various stakeholders with a high degree of accuracy and on a timely basis. The Company has also started using PowerBI for internal publishing of dashboards and reports to the management team.

IT Infrastructure Outsourcing

The Company has been working in partnership with IBM on outsourced infrastructure management services. The Data Centre and disaster recovery server infrastructure management is managed by the outsourced provider. The Company has also upgraded the IT infrastructure to ensure uninterrupted support for growth plans along with usage of cloud-based service providers. The Company has entered into partnerships with Bharti Airtel, Sify and Tata Teleservices for network connectivity in all critical locations.

Technology initiatives

The Company continually upgrades its technology architecture and applications to keep pace with a changing microfinance industry. With initiatives such as field force automation through use of tablets, robust internal communication and knowledge management systems, there are direct benefits in terms of greater cooperation between teams as well as more effective management of operations. The Company is now using technology capabilities such as cashless disbursements through instant payment mode (IMPS), instant credit eligibility checks, etc. to improve efficiency as well as enhance the quality of customer experience.

Corporate Governance Report

Corporate Governance Report

I. CORPORATE GOVERNANCE PHILOSOPHY

CreditAccess Grameen Limited ("the Company") follows the highest standards of governance principles, given the profile of customers that the Company works with. This approach has helped the Company to weather the turbulent times that the MF industry has faced from time to time. This approach has also demonstrated that the vulnerability to a financial crisis is reduced through the acceptance of the Company's approach and practices by other stakeholders in the eco-system in which the Company operates. It has also ensured sustained access to capital and debt markets on a continuing basis. The Company is committed to further strengthening this approach through the adoption of 'best in class' philosophy, systems and processes in the realm of governance.

In India, corporate governance standards for listed companies are mandated under the Companies Act, 2013 ("CA 2013") and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"). In addition to the above, corporate governance standards for Non-Banking Finance Companies are also prescribed by the Reserve Bank of India.

The Company has always believed in implementing corporate governance guidelines and practices that go beyond meeting the letter of the law and has comprehensively adopted practices mandated in the CA 2013 and SEBI LODR Regulations to fulfil its responsibility towards the stakeholders. These guidelines ensure that the Board of Directors ("the Board") will have the necessary authority to review and evaluate the operations when required. Further, these guidelines enable the Board to make decisions that are independent of the Management.

Financial Reports

INDEPENDENT AUDITOR'S REPORT

To the Members of CreditAccess Grameen Limited (formerly known as Grameen Koota Financial Services Private Limited)

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of CreditAccess Grameen Limited (formerly known as Grameen Koota Financial Services Private Limited) ("the Company"), which comprise the Balance sheet as at March 31, 2019, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (Sas), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Ind AS financial statements for the financial year ended March 31, 2019. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
<p>(a) Transition to Ind AS accounting framework <i>(as described in note 40 of the Ind AS financial statements)</i></p> <p>In accordance with the roadmap for implementation of Ind AS for non-banking financial companies, as announced by the Ministry of Corporate Affairs, the Company has adopted Ind AS from April 1, 2018 with an effective date of April 1, 2017 for such transition. For periods up to and including the year ended March 31, 2018, the Company had prepared and presented its financial statements in accordance with the erstwhile generally accepted accounting principles in India (Indian GAAP). In order to give effect of the transition to Ind AS these financial statements for the year ended March 31, 2019, together with the comparative financial information for the previous year ended March 31, 2018 and the transition date balance sheet as at April 1, 2017 have been prepared under Ind AS.</p> <p>The transition has involved significant changes in the Company's financial reporting processes, including generation of reliable and supportable financial information. The transition has also required the management to exercise judgement in determining the impact of Ind AS on specific disclosure requirements prescribed under extant Reserve Bank of India (RBI) directions.</p> <p>In view of the complexities in implementing Ind AS discussed above, we have focused on this area in our audit.</p>	<ul style="list-style-type: none">• Considered the Ind AS impact assessment performed by management to identify areas to be impacted on account of Ind AS transition. Also considered the changes made to the accounting policies in light of the requirements of the new framework.• Understood the financial statement closure process and the additional controls (including IT controls) established by the Company for transition to Ind AS.• Tested the accounting adjustments posted as at the transition date and in respect of the previous year to convert the financial information reported under erstwhile Indian GAAP to Ind AS.• Assessed the judgement applied by the management in reporting of areas where the accounting treatment prescribed under Ind AS was different from the extant RBI directions and the impact of such differences on specific regulatory disclosures such as capital to risk-weighted assets ratio (CRAR) and net interest margin (NIM).• Compared the disclosures included in the Ind AS financial statements, in respect of the previous periods presented, with the requirements of Ind AS 101.
<p>(b) Impairment of financial instruments (expected credit losses) <i>(as described in note 6 of the Ind AS financial statements)</i></p> <p>Ind AS 109 requires the Company to provide for impairment of its financial instruments using the expected credit loss (ECL) approach. ECL involves an estimation of probability-weighted loss on financial instruments over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions which could impact the credit quality of the Company's loans and advances. In the process, a significant degree of judgement has been applied by the management in respect of following matters:</p>	<ul style="list-style-type: none">• Our audit procedures included considering the Company's accounting policies for impairment of financial instruments and assessing compliance with the policies in terms of Ind AS 109.• Engaged our specialists to review management's approach for calculating the impairment provision and assess the key assumptions i.e., Probability of Default (PD) and Loss Given Default (LGD) used to determine the impairment provision.

<p>a) Defining thresholds for 'significant increase in credit risk' and 'default'.</p> <p>b) Grouping of the loan portfolio under homogenous pools in order to determine probability of default on a collective basis.</p> <p>c) Determining effect of less frequent past events on future probability of default.</p> <p>d) Estimation of management overlay for macro-economic factors which could impact the credit quality of the loans.</p> <p>Given the complexity and judgement involved in the estimation of expected credit losses, we have considered this area as a key audit matter.</p>	<ul style="list-style-type: none">Tested the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets for determining the PD and LGD rates.Tested the operating effectiveness of the controls for staging of loans based on their past-due status. Tested a sample of performing (stage 1) loans to assess whether any loss indicators were present requiring them to be classified under stage 2 or 3.Tested the input data used for determining the PD and LGD rates and agreed the data with the underlying books of accounts and records.Tested the arithmetical accuracy of computation of ECL provision performed by the Company in spreadsheets.Tested assumptions used for management overlay in accordance with the governance framework approved by the Board of Directors.Compared the disclosures included in the Ind AS financial statements in respect of expected credit losses with the requirements of Ind AS 107 and 109.
<p>(a) IT systems and controls</p> <p>We identified IT systems and controls over financial reporting as a key audit matter for the Company because its financial accounting and reporting systems are fundamentally reliant on IT systems and IT controls to process significant transaction volumes. Automated accounting procedures and IT environment controls, which include IT governance, general IT controls over program development and changes, access to programs and data and IT operations, are required to be designed and to operate effectively to ensure accurate financial reporting.</p>	<p>For testing the IT general controls, we included specialized IT auditors as part of our audit team. The specialized team also assisted in testing the information produced by the Company's IT systems.</p> <p>We tested the design and operating effectiveness of the Company's IT access controls over the information systems that are critical to financial reporting.</p> <p>We tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing that requests for access to systems were appropriately reviewed and authorized.</p> <p>We tested the Company's periodic review of access rights. We inspected requests of changes to systems for appropriate approval and authorization. We considered the control environment relating to various interfaces, configuration and other application controls identified as key to our audit.</p> <p>In addition to the above, we tested the design and operating effectiveness of certain automated controls that were considered as key internal controls over financial reporting.</p> <p>Where deficiencies were identified, we tested compensating controls or performed alternate procedures.</p>

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the annual report, but does not include the Ind AS financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read such other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and to comply with the relevant applicable requirements of the standard on auditing for auditor's responsibility in relation to other information in documents containing audited financial statements.

Responsibilities of Management and Those Charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(I) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements for the financial year ended March 31, 2019 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (II) of section 143 of the Act, we give in the "Annexure I" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Report on Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of CreditAccess Grameen Limited (the "Company") as of March 31, 2019 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended March 31, 2019

1. Corporate Information

CreditAccess Grameen Limited (Formerly known as Grameen Koota Financial Services Private Limited) ('the Company') is a company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is registered as a non-deposit accepting Non-Banking Financial Company ('NBFC-ND') with the Reserve Bank of India ('RBI') and has got classified as a Non-Banking Financial Company - Micro Finance Institution ('NBFC-MFI') with effect from September 5, 2013. The Company's shares are listed on two recognised stock exchanges in India.

The Company is engaged primarily in providing micro finance services to women who are enrolled as members and organized as Joint Liability Groups ('JLG'). In addition to the core business of providing micro-credit, the Company uses its distribution channel to provide certain other financial products and services to the members.

2. Basis Of Preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under Section 133 of the Companies Act, 2013 ("the Act"). The financial statements have been prepared on a going concern basis.

For all periods up to and including the year ended March 31, 2018, the Company prepared its financial statements in accordance with generally accepted accounting principles in India (Indian GAAP) notified under section 133 of the Companies Act, 2013 ('the Act'), read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Accounting Standards) Amendment Rules, 2016 and the Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') issued by RBI.

The financial statements for the year ended March 31, 2019 are the first, the Company has prepared in accordance with Ind AS. The Company has applied Ind AS 101 - First time adoption of Indian Accounting Standards, for transition from previous GAAP to Ind AS. An explanation of how transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note No. 40.

The financial statements have been prepared on a historical cost basis, except for fair value through other comprehensive income (FVOCI) instruments, financial assets held for trading and financial assets and liabilities designated at fair value through profit or loss (FVTPL), all of which have been measured at fair value. The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest crores, except when otherwise indicated.

2.1. Presentation of financial statements

The Company presents its balance sheet in order of liquidity.

The Company generally reports financial assets and financial liabilities on a gross basis in the balance sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically.

2.2. Critical accounting estimates and judgements

"The preparation of the Company's financial statements requires Management to make use of estimates and judgements. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from those on which the Management's estimates are based. Accounting estimates and judgements are used in various line items in the financial statements for e.g.:

- Business model assessment (Refer Note no. 3.14)
- Fair value of financial instruments (Refer Note no. 3.17)
- Effective interest rate (EIR) (Refer Note no. 3.1.1)

- Impairment of financial assets (Refer Note no. 3.15)
- Provisions (Refer Note no. 3.8)
- Contingent liabilities and assets (Refer Note no. 3.9)
- Provision for tax expenses (Refer note no. 3.11)
- Residual value and useful life of property, plant and equipment (Refer Note no. 3.6.1)

3. Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Revenue recognition

3.1.1 Interest income

Interest income for all financial instruments measured either at amortised cost or at fair value through other comprehensive income, is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable and are an integral part of the EIR, but not future credit losses.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

3.1.2 Interest on financial assets at fair value through profit and loss (FVTPL) is recognised in accordance with the contractual terms of the instrument.

3.1.3 Dividend income is recognised when the right to receive payment is established.

3.1.4 The Company recognises gains on fair value change of financial assets measured at FVTPL and realised gains on derecognition of financial asset measured at FVTPL and FVOCI on net basis.

3.2 Finance cost

Borrowing cost on financial liabilities are recognised by applying the EIR.

3.3 Cash and cash equivalents

Cash and cash equivalents, comprise cash in hand, cash at bank and short-term investments with an original maturity of three months or less, that are readily convertible to insignificant risk of changes in value.

3.4 Property, plant and equipment ('PPE')

Initial Recognition and measurement:

PPE are stated at cost (including incidental expenses directly attributable to bringing the asset to its working condition for its intended use) less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Subsequent expenditure related to PPE is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of item can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

3.5 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

3.6 Depreciation and amortization

3.6.1 Depreciation

Depreciation on property, plant and equipment is measured using the straight line method as per the useful lives of the assets estimated by the management. The useful life estimated by the management is as under:

Category of Asset	Usefull Life (Years)
Furniture and fittings	10
Office equipments	05
Vehicles	08
Buildings	30
Electrical equipment	10
Computers (including Servers)	03

Leasehold improvement is amortised on a straight line basis over the primary period of lease.

The management has estimated, supported by independent assessment by professionals, the useful life of servers and two-wheeler vehicles as 3 years and 8 years respectively, which are lower than those prescribed under Schedule II to the Act.

3.6.2 Amortisation

Intangible assets are amortized on a straight line basis over the estimated useful economic life. The managemnet has determined its estimate of useful economic life as five years. The useful lives of intangible assets are reviewed at each financial year and adjusted.

3.7 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

3.8 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

3.9 Contingent liabilities and assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised. A contingent asset is disclosed, as required by Ind AS 37, where an inflow of economic benefits is probable.

3.10 Retirement and other employee benefits

3.10.1 Defined contribution plan

Retirement benefits in the form of provident fund and superannuation are defined contribution schemes. The

Company has no obligation, other than the contribution payable to the respective funds. The Company recognises contribution payable to the respective funds as expenditure, when an employee renders the related service.

3.10.2 Defined benefit plan

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each year. Gains or losses through remeasurements of net benefit liabilities/ assets are recognised with corresponding charge/credit to the retained earnings through other comprehensive income in the period in which they occur.

3.10.3 Other employee benefits

The Company treats accumulated leave expected to be carried forward beyond twelve months as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the end of each financial year. The Company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

3.11 Taxes

3.11.1 Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside the statement profit or loss is recognised outside the statement profit or loss (either in other comprehensive income or in equity).

3.11.2 Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement profit or loss is recognised outside the statement profit or loss (either in other comprehensive income or in equity).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.12 Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.13 Share based payments

Equity-settled share based payments to employees are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share based payments transactions are set out in Note 34.

The cost of equity-settled transactions is measured using the fair value method and recognised, together with a corresponding increase in the "Stock options outstanding account" in reserves. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognised in the statement of profit and loss for the year represents the movement in cumulative expense recognised as at the beginning and end of that year and is recognised in employee benefits expense.

3.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.14.1 Financial Assets

3.14.1.1 Initial recognition and measurement

Financial assets are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. The classification of financial instruments at initial recognition depends on their purpose and characteristics and the management's intention when acquiring them. All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

3.14.1.2 Classification and Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Loans at amortised cost
- Loans at fair value through other comprehensive income (FVTOCI)
- Investments in debt instruments and equity instruments at fair value through profit or loss (FVTPL)

3.14.1.3 Loans at amortised costs

Loans are measured at the amortised cost if both the following conditions are met:

- (a) Such loan is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method less impairment. Amortised cost is calculated by taking into account fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit and loss.

3.14.1.4 Loans at fair value through other comprehensive income (FVTOCI)

Loans are classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Loans included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is recognised as interest income using the EIR method.

3.14.1.5 Investment in debt instruments and equity instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

3.14.2 Financial Liabilities

3.14.2.1 Initial recognition and measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for trading or it is designated as on initial recognition. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments, which are measured at amortised cost.

3.14.2.2 Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. The EIR amortisation is included as finance costs in the statement of profit and loss.

3.14.3 Reclassification of financial assets and liabilities

The company doesn't reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

3.14.4 De-recognition of financial assets and liabilities

3.14.4.1 De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is de-recognised when the rights to receive cash flows from the financial asset have expired. The Company also de-recognises the financial asset if it has transferred the financial asset and the transfer qualifies for de-recognition.

The Company has transferred the financial asset if, and only if, either:

- It has transferred its contractual rights to receive cash flows from the financial asset
Or
 - It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates.
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients.
- The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay.

In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients. A transfer only qualifies for de-recognition if either:

- The Company has transferred substantially all the risks and rewards of the asset
or
 - The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer. When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of a financial asset in its entirety, the difference between: (a) the carrying amount (measured at the date of derecognition) and (b) the consideration received (including any new asset obtained less any new liability assumed) is recognised in the statement of profit or loss account.

3.14.4.2 De-recognition of financial liabilities

Financial liability is de-recognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the re-recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

3.15 Impairment of financial assets

3.15.1 Overview of the Expected Credit Loss (ECL) allowance principles

The Company is recording the allowance for expected credit losses for all loans at amortised cost and FVOCI and other debt financial assets not held at FVTPL.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL) as outlined in Note 3.16.2). The Company's policies for determining if there has been a significant increase in credit risk are set out in Note 39.

The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12mECLs are calculated on a collective basis for identified homogenous pool of loans. The Company's policy for grouping financial assets measured on a collective basis is explained in Note 39.

Accordingly, the Company groups its loans into Stage 1, Stage 2, Stage 3, as described below:

Stage 1: When loans are first recognised, the Company recognises an allowance based on 12mECLs. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2 or Stage 3.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the company records an allowance for the LTECLs.

Stage 3: Loans considered credit-impaired (as outlined in Note 39). The Company records an allowance for the LTECLs.

For financial assets for which the company has no reasonable expectations of recovering either the entire outstanding amount, or a proportion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) de-recognition of the financial asset.

3.15.2 The calculation of ECL

The Company calculates ECLs based on a probability-weighted scenarios and historical data to measure the expected cash shortfalls. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

ECL consists of three key components: Probability of Default (PD), Exposure at Default (EAD) and Loss given default (LGD). ECL is calculated by multiplying them. Refer Note 38 for explanation of the relevant terms.

The maximum period for which the credit losses are determined is the expected life of a financial instrument.

The mechanics of the ECL method are summarised below:

Stage 1: The 12mECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to an EAD and multiplied by the expected LGD.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument.

Stage 3: For loans considered credit-impaired, the Company recognizes the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

3.16 Write-offs

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to the statement profit and loss account.

3.17 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date using valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:- In the principal market for the asset or liability, or- In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured are categorised with fair value hierarchy into Level I, Level II and Level III based on level of input.

3.18 Segment information

The Company operates in a single business segment i.e. lending to members, having similar risks and returns for the purpose of Ind AS 108 on 'Operating Segments'. The Company operates in a single geographical segment i.e. domestic.

3.19 Business combinations involving common control

In accordance with Ind AS 103, business combinations of entities under common control are accounted using the pooling of interest method. Refer Note 37.

3.20 Foreign currency

- 3.20.1** All transactions in foreign currency are recognised at the exchange rate prevailing on the date of the transaction.
- 3.20.2** Foreign currency monetary items are reported using the exchange rate prevailing at the close of the period.
- 3.20.3** Exchange differences arising on the settlement of monetary items or on the restatement of Company's monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, are recognised as income or as expenses in the period in which they arise.

3.21 Leases (where the Company is the lessee)

Leases where the lessor effectively retains, substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss account on a straight-line basis over the lease term.

Ind AS 116 Leases was notified by MCA on 30 March 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under

Ind AS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company intends to adopt these standards from 1 April 2019. As the Company does not have any material leases, therefore the adoption of this standard is not likely to have a material impact in its financial statements.

39 Risk Management

39.1 Introduction and risk profile

CreditAccess Grameen Limited ("Company") is one of the leading microfinance institutions in India focused on providing financial support to women from low income households engaged in economic activity with limited access to financial services. The Company predominantly offers collateral free loans to women from low income households, willing to borrow in a group and agreeable to take joint liability. The wide range of lending products address the critical needs of customers throughout their lifecycle and include income generation, home improvement, children's education, sanitation and personal emergency loans. With a view to diversifying the product profile, the company has introduced individual loans for matured group lending customers. These loans are offered to customers having requirement of larger loans to expand an existing business in their individual capacity.

The common risks for the company are operational, business environment, political, regulatory, concentration, expansion and liquidity. As a matter of policy, these risks are assessed and steps as appropriate, are taken to mitigate the same.

39.1.a Risk management structure

The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Risk Management framework approved by the Board has laid down the governance structure supporting the identification, assessment, monitoring, reporting and mitigation of risk throughout the company. The objective of the risk management platform is to make a conscious effort in developing risk culture within the organisation and having appropriate systems and tools for timely identification, measurement and reporting of risks for managing them.

The Board has a Risk Management committee which is responsible for monitoring the overall risk process within the Company and reports to the Board of Directors.

The Risk Management guidelines will be implemented through the established organization structure of Risk Department. The overall monitoring of the Risks is done by the Head-Risk Management with the support from all the department heads of the Company. The Board will reviews the status and progress of the risk and risk management system, on quarterly basis through the Audit Committee and Risk Management Committee. The individual departments are responsible for ensuring implementation of the risk management framework and policies, systems and methodologies as approved by the Board. Assignment of responsibilities in relation to risk management is prerogative of the Heads of Departments, in coordination with Head-Risk. While each department focuses on its specific area of activity, the Risk Management Unit operates in coordination with all other departments, utilising all significant information sourced to ensure effective management of risks in accordance with the guidelines approved by the Board. The unit works closely with and reports to the Risk Committee, to ensure that procedures are compliant with the overall framework.

Heads of Departments is accountable to a Management-Level Risk Committee (MLRC) comprising of MD&CEO, CFO and Head-Risk. The departmental heads will report for the implementation of above mentioned guideline within their respective areas of responsibility. The department heads are also accountable to the MLRC for identification, assessment, aggregation, reporting and monitoring of the risk related to their respective domain.

The Company's policy is that risk management processes throughout the Company are audited quarterly by the Internal Audit function, which examines both the adequacy of the procedures and the Company's compliance with the procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Audit Committee.

39.1.b Risk mitigation and risk culture

Risk assessments are conducted for all business activities. The assessments are to address potential risks and to comply with relevant legal and regulatory requirements. Risk assessments are performed by competent personnel from individual departments and risk management department including, where appropriate, expertise from outside the Company. Procedures are established to update risk assessments at appropriate intervals and to review these assessments regularly. Based on the Risk Control and Self Assessment (RCSA), the Company formulates its Risk Management Strategy / Risk Management plan on annual basis. The strategy will broadly entail choosing among the various options for risk mitigation for each identified risk. The risk mitigation is planned using the following key strategies:

Risk Avoidance: By not performing an activity that could carry risk. Avoidance may seem the answer to all risks, but avoiding risks also means losing out on the potential gain that accepting (retaining) the risk may have allowed.

Risk Transfer: Mitigation by having another party to accept the risk, either partial or total, typically by contract or by hedging.

Risk Reduction: Employing methods/solutions that reduce the severity of the loss.

Risk Retention: Accepting the loss when it occurs. Risk retention is a viable strategy for small risks where the cost of insuring against the risk would be greater over time than the total losses sustained. All risks that are not avoided or transferred are retained by default. This includes risks that are so large or catastrophic that they either cannot be insured against or the premiums would be infeasible.

39.1.c Risk measurement and reporting systems

The heads of all the departments in association with risk management department are responsible for coordinating the systems for identifying risks within their own department or business activity through RCSA exercise to be conducted at regular intervals. Based on a cost / benefit assessment of a risk, as is undertaken, some risks may be judged as having to be accepted because it is believed mitigation is not possible or warranted. As the risk exposure of any business may undergo change from time to time due to continuously changing environment, the updation of the Risk Register will be done on a regular basis. All the strategies with respect to managing these major risks shall be monitored by the Head-Risk and MLRC. The Management Level Risk Committee meetings are held as necessary or at least once a month. The Management Level Risk Committee would monitor the management of major risks specifically and other risks of the Company in general. The Committee takes an integrated view of the risks facing the entity and monitor implementation of the directives received from Risk Management Committee and actionable items drawn from the risk management framework.

Accordingly, the Management Level Risk Committee reviews the following aspects of business specifically from a risk indicator perspective and suitably record the deliberations during the monthly meeting.

- Review of business growth and portfolio quality.
- Discuss and review the reported details of PAR, Key Risk Threshold breaches (KRI's), consequent responses and review of operational loss events, if any.
- Review of process compliances including audit performance across organisation.
- Review of HR management, training and employee attrition.
- Review of new initiatives and product/policy/process changes.
- Discuss and review performance of IT systems.
- Review the status of strategic projects initiated.
- Review, where necessary, policies that have a bearing on the operational risk management and recommend amendments.
- Discuss and recommend suitable controls/mitigations for managing operational risk and assure that adequate resources are being assigned to mitigate the risks.
- Review analysis of frauds, potential losses, non-compliance, breaches etc. and determine corrective measures to prevent their recurrences.
- Understand changes and threats, concur on areas of high priority and possible actions for managing / mitigating the same.

39.1.d Risk Management Strategies

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location.

The following management strategies and policies are adopted by the Company to manage the various key risks.

Political Risk mitigation measures:

- Low cost operations and low pricing for customers.
- Customer centric approach, high customer retention.
- Rural focus.
- Systematic customer awareness activities.
- High social focused activities.
- Adherence to client protection guidelines.
- Robust grievance redressal mechanism.
- Adherence to regulatory guidelines in letter and spirit.

Concentration risk mitigation measures:

- District centric approach.
- District exposure cap.
- Restriction on growth in urban locations.
- Maximum disbursement cap per loan account.
- Maximum loan exposure cap per customer.
- Diversified funding resources.

Operational & HR Risk mitigation measures:

- Stringent customer enrolment process.
- Multiple products.
- Proper recruitment policy and appraisal system.
- Adequately trained field force.
- Weekly & fortnightly collections - higher customer touch, lower amount instalments.
- Multilevel monitoring framework.
- Strong, Independent and fully automated Internal Audit function.
- Strong IT system with access to real time client and loan data.

Liquidity risk mitigation measures:

- Diversified funding resources.
- Asset liability management.
- Effective fund management.
- Maximum cash holding cap.

Expansion risk mitigation measures:

- Contiguous growth.
- District centric approach.
- Rural focus.
- Branch selection based on census data & credit bureau data.
- Three level survey of the location selected.

39.2 Impairment assessment

The references below show where the Company's impairment assessment and measurement approach is set out in this report. It should be read in conjunction with the summary of significant accounting policies.

39.2.a Definition of default, significant increase in credit risk and stage assessment

For the measurement of ECL, Ind AS 109 distinguishes between three impairment stages. All loans need to be allocated to one of these stages, depending on the increase in credit risk since initial recognition (i.e. disbursement date):

Stage 1: includes loans for which the credit risk at the reporting date is in line with the credit risk at the initial recognition (i.e. disbursement date).

Stage 2: includes loans for which the credit risk at reporting date is significantly higher than at the risk at the initial recognition (Significant Increase in Credit Risk).

Stage 3: includes default loans. A loan is considered default at the earlier of (i) the Company considers that the obligor is unlikely to pay its credit obligations to the company in full, without recourse by the company to actions such as realizing collateral (if held); or (ii) the obligor is past due more than 90 days on any material credit obligation to the company.

Unlike banks which have more of monthly repayments, the Company offers products with weekly repayment frequency, whereby 15 and above Days past due ('DPD') means already 2 missed instalments from the borrower, and accordingly, the Company has identified the following stage classification to be the most appropriate for its Loans:

Stage 1: 0 to 15 DPD.

Stage 2: 16 to 60 DPD (SICR).

Stage 3: above 60 DPD (Default).

39.2.b Probability of Default ('PD')

PD describes the probability of a loan to eventually falling into Stage 3. PD %age is calculated for each loan account separately and is determined by using available historical observations.

PD for stage 1: is derived as %age of all loans in stage 1 moving into stage 3 in 12-months' time.

PD for stage 2: is derived as %age of all loans in stage 2 moving into stage 3 in the maximum lifetime of the loans under observation.

PD for stage 3: is derived as 100% considering that the default occurs as soon as the loan becomes overdue for 60 days which matches the definition of stage 3.

39.2.c Exposure at default (EAD)

Exposure at default (EAD) is the sum of outstanding principal and the interest amount accrued but not received on each loan as at reporting date.

39.2.d Loss given default (LGD)

LGD is the opposite of recovery rate. $LGD = 1 - (\text{Recovery rate})$. LGD is calculated based on past observations of Stage 3 loans.

LGD is computed as below:

1. All Loans which are above 60 DPD as on 31 March 2013, are taken and the difference in the principal outstanding as on 31st March 2013 and 31st March 2019 is considered as recovery.

2. Likewise the same is done for all the loans (excluding the loans which are already considered in previous years) which are above 60 DPD as on 31 March 2014, 31 March 2015, 31 March 2016, 31 March 2017 and recovery rate is computed for each year.

3. $LGD = 1 - \text{Recovery rate}$ which is computed for each period of observation.

There are Liquidity Risk mitigation measures put in place which helps in maintaining the following:

Diversified funding resources:

The Company's treasury department secures funds from multiple sources, including banks, financial institutions and capital markets and is responsible for diversifying our capital sources, managing interest rate risks and maintaining strong relationships with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies. The Company continuously seek to diversify its sources of funding to facilitate flexibility in meeting our funding requirements. Due to the composition of our loan portfolio, which also qualifies for priority sector lending, it also engages in securitization and assignment transactions.

Asset Liability Management (ALM) can be termed as a risk management technique designed to earn an adequate return while maintaining a comfortable surplus of assets over liabilities. ALM, among other functions, is also concerned with risk management and provides a comprehensive as well as dynamic framework for measuring, monitoring and managing liquidity and interest rate risks. ALM is an integral part of the financial management process of CAGL. It is concerned with strategic balance sheet management, involving risks caused by changes in the interest rates and the liquidity position of CAGL. It involves assessment of various types of risks and altering the asset-liability portfolio in a dynamic way in order to manage risks.

ALM committee constitutes of Board of Directors who would review the tolerance limits for liquidity/ interest rate risks and would recommend to Board of Directors for its approval from time to time. As per the directions of the Board, the ALM statements would be reported to the ALM committee on quarterly basis for necessary guidance.

The scope of ALM function can be described as follows:

- i. Funding and Capital Management,
- ii. Liquidity risk management ,
- iii. Interest Rate risk management ,
- iv. Forecasting and analyzing 'What if scenario' and preparation of contingency plans.

Capital guidelines ensure the maintenance and independent management of prudent capital levels for CAGL to preserve the safety and soundness of the company, to support desired balance sheet growth and the realization of new business; and to provide a cushion against unexpected losses. Refer Note 35(a) with respect to regulatory capital of the Company as at the reporting dates.

39.2.e Grouping financial assets measured on a collective basis

The Company believes that the Joint Liability Group (JLG) loans have shared risk characteristics (i.e. homogeneous) and Individual loans (IL) have not shared risk characteristics. Therefore, JLG and IL are treated as two separate groups for the purpose of determining impairment allowance.

39.2.f Analysis of inputs to the ECL model under multiple economic scenarios

Adjusting the ECL to reflect the expected changes (if any) in the economic environment for forward looking information in the form of management overlay.

Based on the historical loss experience, adjustments need to be made on the average PD computed to give effect of the current conditions which is done through management overlay by assigning probability weightages to different scenarios.

The methodology and assumptions used for estimating future cash flows should be reviewed regularly so that there is minimum difference between expected loss and the actual loss expenses.

39.3 Interest Rate Risk (IRR)

RBI has allowed NBFCs to price most of their assets and liabilities. Interest rate risk is the risk where changes in market interest rates might adversely affect CAGL's financial condition and the changes in interest rates affect CAGL in a larger way. The immediate impact of changes in interest rates is on earnings (i.e. reported profits) by changing its Net Interest Margin (NIM). The risk from the earnings perspective can be measured as changes in Net Interest Margin (NIM). In line with RBI guidelines, the traditional GAP analysis is considered as a suitable method to measure the Interest Rate Risk for CAGL.

CAGL shall also adhere to these prudential limits and the tolerance/prudential limits for structural liquidity under different time bucket.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's profit and loss statement.

Borrowings			
Increase in basis points	+ 25	(4.61)	(2.83)
Decrease in basis points	- 25	4.61	2.83

39.4 Liquidity risk and funding management

Liquidity risk arises due to the unavailability of adequate amount of funds at an appropriate cost and tenure. The Company may face an asset-liability mismatch caused by a difference in the maturity profile of our assets and liabilities. This risk may arise from the unexpected increase in the cost of funding an asset portfolio at the appropriate maturity and the risk of being unable to liquidate a position in a timely manner and at a reasonable price. We monitor liquidity risk through our Asset Liability Management Committee. Monitoring liquidity risk involves categorizing all assets and liabilities into different maturity profiles and evaluating them for any mismatches in any particular maturities, particularly in the short-term. We actively monitor our liquidity position to ensure that we can meet all borrower and lender-related funding requirements.

40 Disclosure as per Ind AS 101 First-time adoption of Indian Accounting Standards:

40.1 Overall principle:

The Company has prepared the opening balance sheet as per Ind AS as of 1st April, 2017 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities.

However, this principle is subject to certain mandatory exceptions and certain optional exemptions availed by the Company as detailed below:

Mandatory exceptions and optional exemption

Classification of debt instruments:

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.

Determining whether an arrangement contains a lease:

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

**Classification and measurement of financial assets:**

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS.

Impairment of financial assets:

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date.

Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind AS, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

Share based payments:

Ind AS 102 share based payment has not been applied to equity instruments in share-based payment transactions that vested before April 1, 2017.

Estimates:

The estimates at April 1, 2017 and at March 31, 2018 are consistent with those made for the same dates in accordance with Previous GAAP (after adjustments to reflect any differences in accounting policies) apart from the following items where application of Previous GAAP did not require estimation:

- FVPTL / FVOCI - equity and debt instrument.
- Impairment of financial assets based on expected credit loss model.

The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions at April 1, 2017, the date of transition to Ind AS and as of March 31, 2018.

**Notes:****1. EIR on loans and borrowings:**

"Under Previous GAAP, loan processing fees received in connection with loans portfolios recognized upfront and credited to profit or loss for the period. Under Ind AS, loan processing fee is credited to profit and loss using the effective interest rate method. The unamortized portion of loan processing fee is adjusted from the loan portfolio.

For Borrowings under Previous GAAP, transaction costs incurred in connection with borrowings are amortised upfront and charged to profit or loss for the period. Under IndAS, transaction costs are included in the initial recognition amount of financial liability and charged to profit or loss using the effective interest method.

2 Expected credit losses on loans:

Under the Ind AS, allowance is provided on the loans given to customers on the basis of percentage obtained by evaluating the loss of the previous years. Under Previous GAAP, the Company has created provision for loans and advances based on the provisioning norms prescribed in NBFC Master Directions. Under Ind AS, impairment allowance has been determined based on Expected Loss model (ECL). Due to ECL model, the Company impaired its loans and advances. In addition, ECL on off balance sheet has also been determined as per Ind AS. The differential impact has been adjusted in Retained earning/ Profit and loss during the year. Under Previous GAAP, contingent provision against standard assets and provision for non-performing assets were presented under provisions. However, under Ind AS financial assets measured at amortised cost and FVOCI are presented net of provision for expected credit losses.

3 Defined benefit obligations:

Both under Previous GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Previous GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI.

4 Share based payments:

Under Previous GAAP, the Company recognised only the intrinsic value for the share based payments plans as an expense. Ind AS requires the fair value of the share options to be determined using an appropriate pricing model recognised over the vesting period.

5 Other comprehensive income

Under Previous GAAP, the Company has not presented other comprehensive income (OCI) separately. Hence, it has reconciled Previous GAAP profit or loss to profit or profit or loss as per Ind AS. Further, Previous GAAP profit or loss is reconciled to total comprehensive income as per Ind AS.

6 Deferred tax

Previous GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Previous GAAP.

In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or a separate component of equity.

41 Earnings per share (EPS)

The following reflects the profit / loss after tax and equity share data used in the basic and diluted EPS calculations:

Particulars	March 31, 2019	March 31, 2018
Net profit/ (loss) after tax as per statement of profit and loss (₹ in crores)	321.76	212.48
Net profit/ (loss) as above for calculation of basic EPS and diluted EPS (₹ in crores)	321.76	212.48
Add: Interest on debentures convertible into equity shares (net of tax) (₹ in crores)	-	-
Net profit/ (loss) for calculation of diluted EPS (₹ in crores)	321.76	212.48
Weighted average number of equity shares in calculating basic EPS	137,706,065	101,638,978
Stock options granted under ESOP	1,312,700	1,265,720
Weighted average number of equity shares in calculating dilutive EPS	139,018,765	102,904,698
Earnings per share	23.37	20.91
Dilutive earnings per share [#]	23.14	20.65
Nominal value per share	10.00	10.00

Since the impact of conversion potential equity shares is anti-dilutive in nature, the same has not been taken in the calculation of diluted EPS.

Notes

A photograph showing a group of approximately twelve women of Indian descent gathered in a circle on a light-colored, textured floor. They are all wearing traditional saris in various colors like blue, orange, yellow, and red. Each woman has her right hand joined with the right hand of the woman directly opposite her, creating a continuous circle of hands. The women are looking down at their hands or slightly to the side. The background is a plain, light-colored wall.

Together we walk.
Together we grow.
